

# NOTICE FROM NYCC RE ROAD WORKS

## **A6108 Leyburn Road/A6108 East Witton Road, Middleham – RESURFACING WORKS**

This letter is to inform you that Colas Ltd will be undertaking highway maintenance at the above location on behalf of North Yorkshire County Council.

The works are currently programmed to commence on 19/08/2019 and last for approximately 8 days, Monday to Friday only (excluding weekends and Bank Holidays).

The work is part of an extensive programme and consequently it is possible that some adjustment to this start date or the duration of the works may be necessary should unforeseen circumstances such as significant weather events or emergencies on the highway network arise.

The road closures will be carried out between the hours of **14:00-22:00** only. This may inevitably restrict vehicular access to properties directly affected but our contractors will try to assist you where possible during the working day with on-site personnel tasked with managing access.

Vehicular access will not be permitted throughout the works and it would be appreciated that vehicles are removed from the highway before 13:30 on the above dates. Please be advised there will be extended periods when access will just not be possible due to the nature of the works and physical constraints of the site. Pedestrian access will be permitted.

We request your assistance in the following ways: -

- Please contact the Colas Newcastle office on 0191 414 6511 to identify any special access needs you may have during the work period;
- If possible, make arrangements to store your vehicle at an alternative location;
- Cooperate and comply with any instructions issued by the traffic management operatives and take extra care whilst within the works area.
- For further information including diversion information and to sign up for alerts please go to; <http://www.northyorks.gov.uk/article/30550/Public-notices>

I would like to take this opportunity to apologise for any disruption that these works may cause and would again request your cooperation to help ensure an efficiently and safely executed project.
